

# Forest solutions to the Climate Emergency

UN-REDD  
PROGRAMME

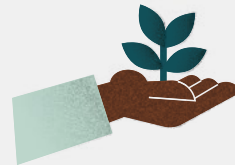

UN-REDD is the **flagship UN knowledge and advisory programme on forests and climate**, with a focus on advancing Articles 5 and 6 of the Paris Agreement. It is the **largest international provider of REDD+ assistance**, helping its 65 partner countries protect their forests and achieve their climate goals.

UN-REDD countries have submitted more than **700 million tCO<sub>2</sub>** of forest emissions reductions to the UNFCCC

... equal to taking more than **150 million cars** off the road for a year.

More than **1 billion USD** channeled and mobilized since inception

...Including **350 million USD** for REDD+ results-based payments.

**25 UN-REDD countries** have adopted **REDD+ policies** at ministerial/cabinet level

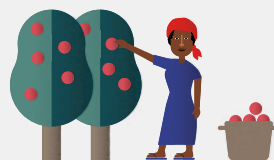

**70%** have demonstrated substantial **decreases in deforestation**.

UN-REDD has directly assisted more than **2/3** of the countries that established **REDD+ safeguards** systems.

**UN-REDD has become the leader** and preferred partner in building robust social & environmental safeguards systems.

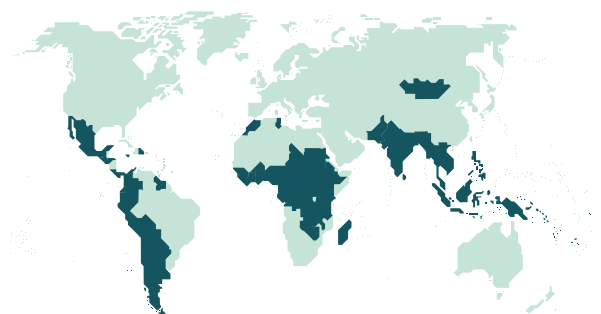

More than **30 countries** have established participatory and **socially inclusive REDD+** processes

**Indigenous peoples and rural women** recognized as key REDD+ stakeholders.

## A commitment to integrity and transparency

- **38** countries with **transparent** forest monitoring systems
- **31** countries with national forest **inventories**
- **4,000** active users of UN-REDD forest-monitoring **software** (Open Foris)

● UN-REDD partner countries host **70% of all tropical forests**.
